Site Security Solutions

Protect your project with smarter, faster security

Construction sites are prime targets for theft and trespass.

When plant, tools, fuel or materials disappear, the true cost is rarely limited to the value of what has been taken. Lost working hours, project delays, replacement equipment, increased insurance costs and contractual pressures can quickly turn a single incident into a major operational headache.

Clearway provides intelligent site security that helps prevent theft, deter intruders and protect valuable assets. From rapidly deployed CCTV towers and intrusion detection systems to access control and remote monitoring, we deliver practical security solutions that keep your site safe, compliant and productive.

Key Facts[1]

- £800m+ lost to site theft and vandalism each year
- 1 in 5 sites affected
- <10% recovery rate

CCTV Towers
Visible deterrent with live monitoring.

AI-Driven Detection
Cut false alarms and respond to real threats with intelligent analytics.

Intrusion Detection (inView Detect)
Autonomous, solar-powered protection.

Access Control
Control who enters your site.

24/7 Remote Monitoring
NSI Gold Cat II accredited monitoring ensures every alert is verified and acted on fast.

Rapid Deployment Security
Protect your site from day one with systems that install in minutes and scale as you grow.

Wireless Alarms
Instant alerts with video verification.

Perimeter Protection
Secure boundaries and vulnerable areas.

Supporting Site Safety Solutions

PPE Monitoring
Improve compliance with real-time alerts.

Wearable Safety Devices
Protect lone workers with instant communication.

Protect your site. Prevent loss. Stay on programme.

1. Published industry statistics from Allianz, CIOB, NaVCIS and UK construction security reports
